### DETAILED ACTION

It is noted that a copy of United Kingdom application 021604.8 has not been filed. A copy is needed to grant priority under 35 USC 119.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 1, 4-9, 12, 13, 16-18, 23 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pugh in view of Bach, et al. as applied and for the reasons set forth in the Office action mailed 07/19/07.

Applicants' arguments have been carefully considered but are not deemed persuasive in view of the comment in the paragraph bridging columns 4 and 5 in Bach. While the examiner is of the opinion that Bach, column 11, lines 1-14

slowing an arm movement the above noted paragraph more clearly teaches this operation. Thus this operation would be obvious in Pugh in view of Bach.

Claims 19 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pugh in view of Bach, et al. as applied to claim 18 above, and further in view of Meyer, et al. as applied and for the reasons set forth in the Office action mailed 07/19/07.

Claim 21 is rejected under 35 U.S.C. 103(a) as being unpatentable over Pugh in view of Bach, et al. as applied to claim 1 above, and further in view of Wacht, et al. as applied and for the reasons set forth in the Office action mailed 07/09/07.

Newly cited Kaufeldt teaches slowing down an arm prior to full stop.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
